COMPREHENSIVE FERTILITY CONCLAVE 2026

GENESIS OF LIFE:
INNOVATION IN FERTILITY MEDICINE

Sunday, 1st March 2026

Venue: Taj, M G Road,
Bangalore

DELEGATE BROCHURE

Introduction

Welcome to The Comprehensive Fertility Conclave (CFC) 2026, taking place at the prestigious Taj, M G Road, Bangalore. Scheduled on Sunday, 1st March 2026, this event will bring together leading healthcare professionals, researchers, and specialists to explore the latest advancements in reproductive medicine. Through engaging discussions and presentations, CFC 2026 aims to drive the future of infertility care by integrating clinical innovations and patient-centered approaches. Join us in shaping a brighter, more compassionate future for reproductive health.

Theme

The Comprehensive Fertility Conclave (CFC) 2026 will focus on advancing infertility care by exploring the latest innovations, research, and technologies in reproductive medicine. It will emphasize the importance of a patient-centered approach, integrating both clinical advancements and the emotional aspects of fertility treatments. CFC 2026 aims to bring together healthcare professionals, educators, and specialists to collaborate, share insights, and discuss new treatments, driving the future of reproductive health and empowering providers to deliver compassionate, well-rounded care.

Here's what we are going to learn at CFC 2026 – join us as we dive into these critical areas of reproductive medicine, share knowledge, and shape the future of infertility care.

Pre-conference Workshop Sessions

- **Basics of Micro Surgical Skills and Ergonomics: Hands-on Micro-TESE**
- **Hands-on workshop on Rapid Vitrification**
- **Female Fertility Simulation Workshop**

Scientific Sessions

- ✓ **Reproductive Endocrinology, Ovarian Biology & Aging**
- ✓ **Reproductive Immunology & Inflammation**
- ✓ **Male Reproductive Health & Andrology**
- ✓ **Translational and Regenerative Reproductive Medicine**

About

The infertility care market in India has shown remarkable growth, projected to expand from \$750 million in 2020 to \$4 billion by 2030. This growth is driven by advancements in medical technology, increased awareness, and evolving attitudes toward infertility treatments. The success rate of treatments like IVF is approximately 40%, influenced by factors such as patient age and health conditions. Innovative techniques, including embryo genetic screening and fertility preservation, are becoming more accessible, paving the way for improved outcomes. Addressing awareness, affordability, and stigma remains critical to ensuring equitable access to infertility care across the nation.

Host City

Bengaluru, widely celebrated as the “Silicon Valley of India,” is not only a global hub for technology and innovation but also a growing center for medical excellence, particularly in reproductive medicine. The city, with its advanced infrastructure and vibrant cosmopolitan culture, will proudly host the Comprehensive Fertility Conclave (CFC) 2026 at the iconic Taj Hotel, MG Road. Known for its pleasant climate and dynamic healthcare ecosystem, Bengaluru is home to renowned fertility clinics and research centers that integrate the latest advancements in assisted reproductive technologies (ART) with a compassionate, patient-centric approach.

CFC 2026 will gather leading healthcare professionals, researchers, and specialists from across the globe to explore innovations in infertility care, share groundbreaking research, and discuss holistic, patient-focused treatments. With its perfect blend of modernity and cultural heritage, Bengaluru provides an inspiring backdrop for this landmark event, promising to drive advancements in reproductive health and empower medical professionals to address the evolving challenges of infertility care.
